

RALLYjack PRO

Ultra-fast double-acting hydraulic jack

The **RALLYJack PRO** is an **ultra-fast, double-action hydraulic jack** designed specifically for rally racing.

It is designed to allow crews to address punctures and the need to quickly change wheels during special stages, ensuring a **fast and efficient** operation.

TECHNICAL CHARACTERISTICS

Base	Swivel foot, machined from a solid block of aeronautical aluminum
Weight	4,10 kg
Lifting speed	4.5 pumps to reach maximum extension
Liftable weight	600 kg
Minimum adjustment height	10.50 cm
Maximum adjustment height	41 cm
Extension	32 cm
Length of the jack when closed	62,5 cm
Insertion pin	<ul style="list-style-type: none">• 21,23,25,27 o 30 mm• Hexagonal section CH17

MATERIAL

- AL6082 aeronautical aluminum alloy

BEST PRACTICE

- Rally

ACCESSORY

Hydraulic jack support
