

Quality Policy

DINO PAOLI Srl has set the goal for 2025 to obtain ISO 9001 and EN 9100 certifications (in their latest applicable revision) building on the multi-year experience acquired in the industrial and automotive sectors, thus making its entry into the aerospace and defense sector. This document therefore aims to declare the intention of DINO PAOLI Srl to continue to focus on a global concept of Quality able to satisfy the following dimensions:

- *To respect for the Environment and sustainability.*
- *To workplace Safety.*
- *To compliance of manufactured products.*
- *To absolute respect for mandatory rules and Customer requirements.*
- *To choice of Certified Suppliers.*
- *To guarantee of free access to our facility by the Customer and the Competent Authorities.*

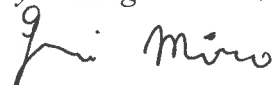

To satisfy these principles, DINO PAOLI Srl sets itself, not in order of importance, the following objectives:

- *To understand the needs and expectations of all Interested Parties.*
- *To punctually monitor System and Product risks and opportunities.*
- *To respect Customer requirements and specifications and mandatory regulations.*
- *To ensure optimization of infrastructure and technical skills of personnel, through continuous training.*
- *To implement continuous improvement of the Quality Management System and related business processes.*
- *To monitor Supplier performance ensuring flow-down of Customer requirements.*
- *To protect the confidentiality of documents provided by the Customer.*
- *To ensure compliance of supplies, guaranteeing above all product quality and respect for agreed delivery times.*
- *To operate in a regime of absolute loyalty and moral integrity with all subjects.*

During the periodic Management Review, DINO PAOLI Srl monitors and updates the Quality Policy which is disseminated at all internal levels of the Organization (ensuring through internal training that it is continuously understood) and externally.
